human, mouse, rabbit, pig, cat, dog, chicken, monkey, guinea pig, hamster, rat.

*The use of bovine products such as casein, serum, albumin or non-fat dry milk as blocking agents may produce a high background due to cross-reactivity of anti-goat IgG with bovine immunoglobulins that may be present. Blocking with Normal Horse Serum (Cat. No. S-2000) or Animal-Free Blocker™ solution (Cat. No. SP-5030) is recommended.
