

Certificate of Analysis

Product Name: AQuora® 350-Maleimide
SKU Number: QBD-12021LF
Lot Number: JB1-Q35001-004
Molecular Weight: 1100

This dye is formulated as a solid. The weight of dye in the container is increased to correct for the percent reactive group shown below in the test results table.

ASSAY	SPECIFICATION	LOT DATA
Appearance	Colorless semisolid	Colorless semisolid
Absorbance Maximum (nm) [†]	347 nm ± 4 nm	347 nm
Purity by HPLC-UV*	≥ 75%	96.5%
Percent Reactive Group by HPLC-UV**	>85%	96.5%

[†]All spectrophotometric measurements are performed in a phosphate buffered saline (PBS) solution at pH 7.4.

* Dye purity is determined by HPLC-UV at the maximum absorbance wavelength and is the mean of three (3) samples.

**The percent reactive group is determined by HPLC-UV at the maximum absorbance wavelength and is the mean of three (3) samples.

This document certifies that Lot JB1-Q35001-004 was analyzed and released by Vector Laboratories Quality Control on March 20, 2025, and was found to meet the currently established test parameters.

A handwritten signature in blue ink, appearing to read 'Dave Schory'.

Dave Schory, M.S.
QC Manager

Vector Laboratories certifies on the date above that this is an accurate record of the analysis of the subject lot and that the data conform to the specifications in effect for this product at the time of analysis.
