bioconjugation products
and services are now
only available from
Vector Laboratories

Short Description

Zeba™ Desalting Columns contain a high performance resin that offers exceptional desalting and protein recovery characteristics compared to other commercially available resins. These 0.5 mL Zeba Columns each have a capacity of up to 130 µL of material. Samples containing as little as 0.25 mg/mL of protein can be processed, providing exceptional protein recovery and > 95% retention of salts and other small molecules < 7 kDa. Zeba Desalting Columns are recommended for processing proteins and other biomolecules with a molecular weight of > 25 kDa to ensure maximum recovery.

Zeba is a trademark of Thermo Fisher Scientific.

Additional Information

Recommended Storage	2° - 8°C – Do Not Freeze
Applications	In Situ Proximity Ligation
Other Name(s)	SoluLINK Bioconjugation
