Short Description

VECTASHIELD PLUS Antifade Mounting Medium with DAPI is a unique, stable formula for preserving fluorescence. This medium inhibits rapid photobleaching of fluorescent proteins and fluorescent dyes.

Features:

- No inherent toning or background
- Superior signal retention across the spectrum from blue to far red
- Mounted sections can be viewed in 1 hour
- DAPI (blue) counterstain premixed with medium
- Available in two convenient sizes
- Superior non-setting formulation

VECTASHIELD PLUS Mounting Medium with DAPI does not solidify, but remains a liquid on the slide and can be stored without sealing. If desired, coverslips can be sealed around the perimeter with nail polish or a plastic sealant. Mounted slides should be stored at 2-8 °C, protected from light.

### VECTASHIELD® PLUS Antifade Mounting Medium with DAPI

VECTASHIELD Antifade Mounting Medium with DAPI is a unique, stable formula for preserving fluorescence. VECTASHIELD Mounting Medium with DAPI inhibits rapid photobleaching of fluorescent proteins and fluorescent dyes. VECTASHIELD Mounting Medium with DAPI does not solidify, but remains a liquid on the slide and can be stored without sealing.

**Features:**
- Ideal refractive index
- Ready to use
- No warming necessary
- Can be stored without sealing for long term analysis
- Easy to use
