ANIMAL-FREE BLOCKER, 5X CONCENTRATE

SKU: SP-5030-250

DESCRIPTION

Animal-Free Blocker (5x) is a plant-derived agent and diluent for immunohistochemistry, nucleic acid and protein blotting, and other applications. This reagent contains no animal-derived protein and can be used as an alternative to sera, BSA, casein, or non-fat dry milk. It is supplied as 250 ml of a 5x concentrate.

SPECIFICATIONS

Blocking Action	Non-Specific Protein Blocking
Unit Size	250 ml
Storage Instructions	2-8 °C

For research use only. Not intended for therapeutic or diagnostic use in animals or humans.

Usage Summary	This product is designed to be used as a general blocking agent/diluent for nucleic acid and protein blot applications.This reagent contains no animal-derived proteins and can be used as an alternative to sera, BSA, casein or non-fat dry milk in situations when animal protein-based blocking solutions cause increased background or interfere with blot developement. Prior to use, 5x Animal-Free Blocker™ should be diluted to 1x with distilled or deionized water.For prolonged storage of diluted Animal-Free Blocker™, sodium azide should be added to give a final concentration of 0.08% (w/v) and the diluted solution refrigerated.
Applications	Immunohistochemistry / Immunocytochemistry, Immunofluorescence, Blotting Applications, Elispot
