

# **METHYLTETRAZINE-SULFO-NHS ESTER**

**SKU:** CCT-1193

## **DESCRIPTION**

Methyltetrazine-*Sulfo*-NHS Ester is a water-soluble, amine-reactive labeling reagent that enables simple and efficient labeling of antibodies, proteins and any other primary amine-containing macromolecules with methyltetrazine moiety in 100% aqueous buffers. Methyltetrazine-*Sulfo*-NHS Ester is a reagent of choice for applications that cannot tolerate organic co-solvents or are complicated by their inclusion. Specific labeling of cell surface proteins is another common application for these uniquely water-soluble and membrane impermeable reagents.
